Does your compliance package comply with the laws of nature?

Introducing Ecoslide-RX...the most revolutionary child-resistant, senior-friendly and eco-friendly compliance package on the market.

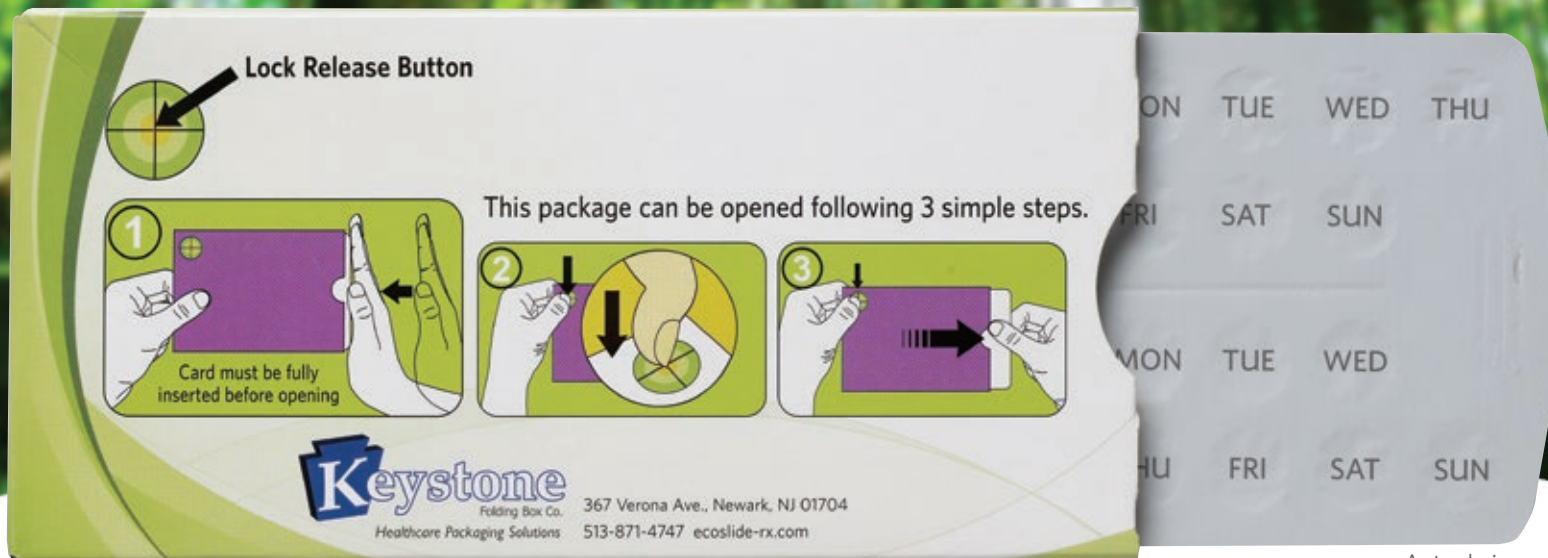

- A secondary package that contains **no plastic**
- Sustainable design is made from **100% recyclable** material
- Unlike other paperboard compliance packs, requires a **minimal** amount of film and foil
- **Cost-effective** and can be automated at the **high speeds** common on bottling lines
- Highest CR rating (**F=1**)

Ecoslide-RX. Where smart meets green.

Actual size.

Ecoslide-RX is a product of Keystone Folding Box Company, an innovator of paperboard packaging solutions for a wide range of industries and applications. Designer and manufacturer, Keystone's expertise means complete solutions for all your packaging needs. Keystone offers a full range of products, manufactured with a wide variety of paperboard stock. Some most requested products include:

- Folding Cartons
- Child-Resistant Packaging
- Club Store Packaging Cards
- Blister Cards
- Specialty Envelopes
- POP Counter Displays

Two most popular products, Key-Pak and Key-Pak Plus, are examples of simple and elegant solutions for solid oral dose products in a blister or unit dose format. Both Key-Pak and Key-Pak Plus are Child-Resistant/Senior-Friendly packages that are less complex to assemble and more cost-effective than similar products on the market.

Applications include:

- Clinical Trial Material
- Compliance Packaging
- Physician's Samples
- Retail Prescription Medication
- Titration Dosing
- OTC Products
